

Booking Your Postoperative Hotel Stay

Patients who are having extensive surgeries, will be asked to spend at least one night at the Parkside Hotel & Spa. This allows us to have a nurse assess you the day after your procedure to ensure things are progressing nicely. Your surgeon is close by, should the need arise for him or her to check on you. It also means we can discharge you directly to your room and get you settled in bed, as Clinic 805 is conveniently located within the Parkside building.

Patients who do not live in Victoria, may be recommended to stay at the Parkside Hotel & Spa.

The length of your stay will be determined on a per case basis and is dependent on where you live and the type of surgery you are having. **You will be given your stay requirements by your surgeon or the clinic staff prior to booking surgery.**

We cannot guarantee any specific surgical times, as cases are scheduled according to many factors. Arrival time is typically provided after all preoperative requirements have been met, approximately 1-3 weeks prior to surgery. As such, we usually recommend that patients traveling to us from outside Victoria check in the day before surgery.

You are responsible for booking your stay. To contact the Parkside Hotel, please either:

- Call toll-free 1-855-616-3557
- Book online at <https://www.parksidevictoria.com/> using promo code **C805**

When booking your stay, please note the following:

- Reservations should be made ASAP following confirmation of your surgical booking to be sure a room is available for you
- Request the "Clinic 805" rate, or use the booking code above to receive a discounted room rate
- If checking in the *day of surgery*:
 - Your support person's name should be on the reservation, as they will have to check in on your behalf
 - You will need to request an early check-in

If Parkside should be unable to accommodate a booking for your surgical procedure, we do have discounted rates available at **three** other nearby hotels. Please visit our website for more specific booking details: <https://www.clinic805.ca/out-of-town-canadian-patients/>
